# BANDAGE-CODING

The image shows a screenshot of a Visual Studio Code editor window. On the left, the Explorer sidebar displays a project structure for 'FIGMA-TEMP-5'. The 'src' directory is expanded, showing subdirectories like 'app', 'components', 'fonts', 'home', 'login', 'payment', 'pricing', 'product', and 'products'. The 'page.tsx' file is selected and highlighted. The main editor area shows the code for 'page.tsx', which is a React functional component named 'Cartpage'. The code includes a JSX element with a 'div' containing a 'Link' component. The 'Link' component has a 'href' attribute set to '/checkout' and a 'className' attribute with Tailwind CSS classes. The code is as follows:

```
17 const Cartpage: React.FC = () => {
108   </h4>
109   </div>
110   </div>
111 }
112
113 /* Checkout Button Section */
114 <div className="bg-white p-4 shadow-md rounded-lg mt-8">
115   <Link
116     href="/checkout"
117     className="w-40 flex items-center text-center bg-blue-500 text-white py-
118   >
119     Checkout
120   </Link>
121 </div>
122
123 </div>
124 );
125 };
126
127 export default Cartpage;
128
```

# CONCLUSION

Bandage Marketplace showcases a modern, scalable e-commerce platform built with ReactJS, NextJS, and Sanity CMS. Featuring dynamic components, responsive design, and seamless functionality, it highlights the team's expertise in creating user-friendly, professional-grade solutions while preparing for real-world development challenges.
